

**India's Fastest Growing
Healthy Food Brand**

— THE PROBLEM

Eating healthy in India is harder than it should be.

Healthy Eating Shouldn't Feel Impossible

Bland healthy food

Most healthy options taste boring and unsatisfying.

Expensive subscriptions

Healthy eating often comes at a premium that doesn't make sense long-term.

Inconsistent quality

Quality varies across providers, kitchens, and even meals.

Hard to sustain daily

Limited variety, repetition, and lack of convenience make it difficult to stay consistent.

OUR SOLUTION

Tasty, high-protein, calorie-conscious food at scale.

— THE FOUNDER

MIRNAL SETHI

Founder & CEO, Dr. Diet

“Couldn’t find healthy food I could eat consistently every day.”

Former lawyer turned food entrepreneur.

01 Structured SOPs & Processes

02 Internal Chef Training Program

03 Consistent Taste, Every Single Time.

OUR DIFFERENTIATOR

We make chefs, we don't hire them.

In-house chef development and training ensures consistency, quality, and passion in every meal.

— BRAND POSITIONING

Taste First. Healthy Second.

Dr. Diet sits at the sweet spot between luxury and low-quality unhealthy food.

Luxury
Expensive & inaccessible

Dr. Diet
Attainable Quality

Cheap, Unhealthy
Low quality & not sustainable

Delivery-First

Designed for modern lifestyles.
Built for scale and convenience.

Cloud & Dine In Kitchen Model

Asset-light operations help us scale faster across cities.

Scalable Operations

Strong systems, standardized recipes, and tech-enabled workflows.

We make healthy eating **exciting, accessible and sustainable** for every Indian.

— TRACTION

**Strong traction.
